December 23, 2017

**PASS THIS INFORMATION ON TO EVERYONE YOU KNOW!!**

Dear Delta Friends and Neighbors,

Your environment, recreation and/or property will be potentially negatively impacted by construction and use of the California WaterFix's three water intake facilities proposed near Clarksburg, Hood, and Courtland and/or the construction of the twin tunnels, so that DWR and state water contractors can siphon off 9000 cubic feet per second of fresh water from the Sacramento River north of Walnut Grove to export to other areas of the state! In addition, a forebay or large lake is proposed near Locke and Walnut Grove, which could impact the groundwater levels for those homes, wells and farm lands nearby. (See attached maps)

The State Water Resources Control Board is going to begin Part 2 of the DWR permitting process on January 18, 2018 for this proposed construction/destruction of North Delta freshwater flows. We are sending out 1,000+ information letters to area persons that will be impacted, **and it would be our request that you write a Policy Statement (Rebuttal Statement) stating how you are impacted and mail or email it to us by January 11, 2018**, to present to the Water Board. You will find a Comment Letter Guideline to help you organize your Statement attached. Please express your personal concern over the construction and water intake facilities and how this potentially impacts you and your family and/or business.

In addition, **and even more importantly, would you be willing to read your Policy Statement in person to the Water Board on/or about January 18, 2018?** Please let us know so we can organize our "Protest-by-Policy-Statement" day/team to be heard at the beginning of the Part 2 Hearings. Our advice is to keep the Policy Statements to between 2-3 minutes in length. (North Delta CARES arranged for 64 people to read their Policy Statements at the Part 1 Hearing in July 2017, and it was very powerful.)

**Please plan to attend a meeting on Thursday, January 4, 2018, at 6 p.m. at the Walnut Grove Community Presbyterian Church, 14120 Grand Avenue, Walnut Grove** to discuss this and to answer your questions. You can also call Barbara Daly at 916-761-4726 with questions.

Thank you for your participation as we all tell Governor Brown and the SWRCB that these water intakes and tunnels will devastate the Delta, our lives, and our futures.

Barbara Daly/ Anna Swenson, Co-Chairs  
North Delta CARES Action Committee
