ENVIRONMENTAL LAND USE CLASSIFICATION

A

B

C

NONE

Statement of Facts:

Steamboat Slough at the docks location is natural, navigable, tidal, and meandered on the S&O survey plat.

The uplands on the left bank are lands the State acquired and patented as S&O location 544; no minerals reserved (Martin's Island).

This unit has not investigated historic positions of the slough, nor the original S&O meander lines, in relation to the present location of the slough.

The present channel of the slough appears to be substantially in the same location as the original S&O meander lines.

Note: No lease or W.O. was found for mid dock at this location.

See Statement of Facts for:

See W 22573 and PRC 5954

Dear Ms. Martin:

This is in further response to your letter dated December 5, 1990, concerning a dock in Snug Cove at Solano County Assessor's Parcel Number 048-270-001.

Our letter dated December 12, 1990, referenced a permit for Parcel Number 048-270-010, which is not your parcel. Our records show that Department of the Army Permit Number 7434 was issued to Mrs. Norma M. Peterson on January 7, 1981 to temporarily retain an 18' x 28' single berth boatshed which was partially located on your property.

No other permit has been issued for any structure at this parcel. Please reference Identification Number 190907434 in any correspondence concerning this parcel. If you have further questions, please write to Phyllis Petras, Room 6540 at the letterhead address, or telephone (916) 551-2272.

Sincerely,

Tom Coe  
Chief, Regulatory Unit 1
